**Revised Estimate – Re – Tur Langton Village Hall**

To remove 17 windows and associated wall panels,  
Make alterations and repairs required in preparation for the new windows,  
Remove the front entrance doors and replace with a stud wall,  
Clad stud wall with cedar boarding supplied by the parish council.

Labour and materials £3,750

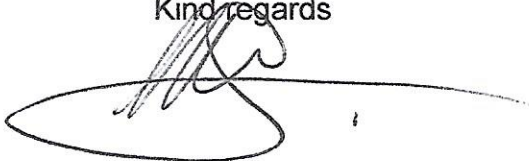

Supply and install 17 UPVC windows of a similar style to the existing windows  
( we haven't allowed for toughened glass but you may want to consider this  
for the main hall ).

£7,500

As we had planned to remove the existing windows and form the new  
openings before we measured up for the new windows this price includes  
provision for temporarily boarding up the window reveals. If you feel this  
wouldn't be necessary as the hall is currently empty a reasonable saving  
could be made.

Please feel free to contact me at any time if you have any further  
developments.

Kind regards

J W BURTON.
