To: "paul.officer@orchards.me.uk" <paul.officer@orchards.me.uk>;

Thank you for your email Mr Officer.

I would be happy to do the work, you are correct in that it is out-of-area, so a small extra charge will apply for the distance.

Looking at the information provided, I can estimate the 16 windows and 2 French doors at:

£8,156.00 A-RATED VEKA HALO WHITE uPVC WINDOWS, HIGH SECURITY LOCKING & HINGE BOLTS:

Deposit with order:	£1,630.00
Balance the week prior to fitting:	£5,196.00
Fitters paid directly on final fit day:	£1,330.00

If the 8 large windows require toughened glass, this price will alter. To get an accurate quote, you would need an initial visit by myself to check all the sizes and confirm all the prices, let me know if that would be useful and when you are available.

In regards to the composite, I would need some specification in order to quote this, so for now **I have not included it**, but vary from **+ £950 - £1,250** on average, this is down to colour choice and glass type... etc.

The lead time would be 5 – 6 weeks approximately.

I look forward to your response, have a good afternoon,

Kind Regards, Adam
